THE JOURNAL

OF

ANIMAL BEHAVIOR

VOLUME 5, 1915

EDITORIAL BOARD

Madison Bentley
University of Illinois

Harvey A. Carr
The University of Chicago
Editor of Reviews

Gilbert V. Hamilton
Santa Barbara, California

Samuel J. Holmes
The University of California

Walter S. Hunter
The University of Texas

Herbert S. Jennings
The Johns Hopkins University

Edward L. Thorndike
Teachers College, Columbia University

Margaret F. Washburn
Vassar College

John B. Watson
The Johns Hopkins University

William M. Wheeler
Harvard University

Robert M. Yerkes, Harvard University
Managing Editor

Published Bi-monthly
at Cambridge, Boston, Mass.
HENRY HOLT & COMPANY
34 West 33d Street, New York
G. E. STECHERT & CO., London, Paris and Leipzig, Foreign Agents

Entered as second-class matter March 7, 1911, at the post-office at Cambridge, Boston, Massachusetts, under the act of March 3, 1879

CONTENTS OF VOLUME 6, 1915

NUMBER 1, JANUARY-FEBRUARY

PAGES

Vincent, Stella B. The white rat and the maze problem. I. The introduction of a visual control..... 1–24

Yerkes, Robert M., assisted by **Eisenberg, A. M.** Preliminaries to a study of color vision in the ring dove *Tutor risorius* 25–43

White, Gertrude M. The behavior of brook trout embryos from the time of hatching to the absorption of the yolk sac 44–60

Bittner, L. H., Johnson, G. R., and **Torrey, H. B.** The earthworm and the method of trial..... 61–65

Hubbert, Helen B. Elimination of errors in the maze.... 66–72

McDermott, F. Alex. Note on the reaction of the housefly to air currents..... 73–74

Financial statement for 1914

NUMBER 2, MARCH-APRIL

Coburn, Charles A., and **Yerkes, Robert M.** A study of the behavior of the crow *Corvus Americanus* Aud. by the multiple choice method..... 75–114

DeVoss, J. C., and **Ganson, Rose.** Color blindness of cats, 115–139

Vincent, Stella B. The white rat and the maze problem. II. The introduction of an olfactory control..... 140–157

Cole, L. W. The Chicago experiments with raccoons.... 158–173

NUMBER 3, MAY-JUNE

Vincent, Stella B. The white rat and the maze problem. III. The introduction of a tactual control..... 175–184

Yerkes, Robert M., and **Coburn, Charles A.** A study of the behavior of the pig *Sus scrofa* by the multiple choice method 185–225

Schwartz, Benjamin, and **Safir, S. R.** Habit formation in the fiddler crab 226–239

Rau, Phil. The ability of the mud-dauber to recognize her own prey (Hymen)..... 240–249

Hargitt, Charles W. Observations on the behavior of butterflies 250–257
Yerkes, Robert M. The rôle of the experimenter in comparative psychology 258

NUMBER 4, JULY-AUGUST

Walton, Arthur C. The influences of diverting stimuli during delayed reaction in dogs 259–291
Barber, Alda Grace. The localization of sound in the white rat 292–311
Hunter, Walter S. The auditory sensitivity of the white rat 312–329
Dodson, J. D. The relation of strength of stimulus to rapidity of habit-formation in the kitten 330–336
Turner, C. H. The mating of *Lasius niger* L. 337–340

NUMBER 5, SEPTEMBER-OCTOBER

Mast, S. O. The behavior of fundulus, with especial reference to overland escape from tide-pools and locomotion on land 341–350
Sturtevant, A. H. Experiments on sex recognition and the problem of sexual selection in drosophila 351–366
Vincent, Stella B. The white rat and the maze problem. IV. The number and distribution of errors—a comparative study 367–374
Redfield, Elizabeth S. P. The grasping organ of *Dendrocoelum lacteum* 375–380
Essenberg, Christine. The habits and natural history of the backswimmers *Notonectidae* 381–390
Shepherd, W. T. Some observations on the intelligence of the chimpanzee 391–396
Essenberg, Christine. The habits of the water-strider *Gerris remiges* 397–402
Yerkes, Robert M. Maternal instinct in a monkey 403–405
Hunter, Walter S. A reply to Professor Cole 406

NUMBER 6, NOVEMBER-DECEMBER

Holmes, S. J. Literature for 1914 on the behavior of the lower invertebrates 407–414

Turner, C. H. Literature for 1914 on the behavior of spiders and insects other than ants 415–445
Vincent, Stella B. Literature for 1914 on the behavior of vertebrates 446–461
Thorndike, E. L., and Herrick, C. Judson. Watson's "Behavior" 462–470
Herrick, C. Judson. Dunlap's "An Outline of Psychobiology" 471–472
Hunter, Walter S. Hachet-Souplet's "De l'Animal a l'Enfant 473–474
Hunter, Walter S. Kafka's "Einführung in die Tierspsychologie" 475–479
Rahn, Carl. Cesaresco's psychology and training of the horse 480–481

Subject and Author Index

VOLUME 5

Original contributions are marked by an asterisk (*)

Alexander, C. P. Biology of flies, 441.
Allee, W. C. Reactions of isopods, 407, 413,
*Amphibians, literature on, 449.
Andrews, E. A. The Bottle-Animalcule, 408, 413.
*Ant, mating in, 337.
*Ape, intelligence of, 391.
*Association, literature on, 440.
Aubin, P. A. The buzzing of diptera, 436, 441.

Back. Life history of melon-fly, 441.
Banta, A. M. Sex recognition in frog, 454, 460.
